EXHIBIT 35

Objective	Metric	2019 NIST Maturity Level	2020 NIST Maturity Level	2017 YTD	2018 YTD	2019 YTD	Feb 20
Palo Alto Firewalls are deployed and actively monitored across the company	KPI: Percentage of actively managed offices with firewalls	5	5	N/A	N/A	100% 56 of 56 offices	97% 2 out of 58 offices
WAFs are deployed for marketing properties but not for production products	KPI: Establish security requirements and set up, assess across organization of both WebOps (IT) and Products DevOps (Stas)	3	3	N/A	N/A		Extend to include External Access No current data
Endpoint protection and encryption is deployed and actively managed across the company	KPIs: Total number of issued assets / Symantec deployments	4	4	N/A	N/A		3380 - AD 2951 - SEF 87% covers
Data leakage protection is deployed across the company and actively monitored	KPI: Total number of issued assets / Netscope deployments	3	3	N/A	N/A		3380 – AD 1620 – Netskope 48% Coven
Email protections are in place to monitor spam, detect phishing and deter known email scammers	KPI: Count of number of blocked emails, Percentage of phishing email blocked	3	3	N/A	N/A		116,694,39 53,766,743 75.89% blo
User identity, authentication and authorization are in place and actively monitored across the company	KPI: Number of assets (mission/business critical) with AD Authentication enabled vs. not enabled	1	1	N/A	N/A	67 – MC 65 – BC 132 Total AD Auth: 19 No AD: 113 14%	67 – MC 65 – BC 132 Total AD Auth: 19 No AD: 113 14%
